**Carlsbad Inn** - The Carlsbad Inn is one of the Grand Pacific Resorts collections of resort properties located in Carlsbad, California. It is a really beautiful property literally steps from the beach. The Carlsbad Inn has two buildings,

Oak and Elm. Some factors that affect pricing at the Carlsbad Inn are unit size, week, level and end units. There are 120 1BR units and only 12 2BR units at the resort, so those 2BR units certainly demand a premium. As with most resorts in San Diego County, summer weeks (24-32) are much more in-demand than other weeks, and week 27 (Fourth of July) is tops. The resort has four buildings, each with three levels. Most guests prefer the top level, although some guests enjoy the ease of access with ground-floor units.

**DVC – Grand Californian Mini-Market Report.** Market inventory is very low. Right now I am seeing less than 10 packages listed for sale by other brokers. Package sizes range from 50 to 300 points, with the average size around 150 points. Price per point gets lower as package size gets higher, with average price per point of about \$160/point for midsize packages. 2017 resale prices are up approximately 6% from 2016. We estimate Disney is exercising their Right of First Refusal at prices of \$140/point and below.

**\*\*Listings Wanted!\*\*** Due to the enormous popularity of the Disney Vacation Club, and the limited availability of resales at the Grand Californian, it is difficult to maintain a steady inventory of DVC timeshares. If you are interested in selling your DVC timeshare, please call or email us today!
